19:30 Leipzig Excursion | St. Nicholas Church

Guided tour and organ play at St. Nicholas Church Leipzig (t.b.c.).

The St. Nicholas Church (German: Nikolaikirche) is the oldest building and one of the major churches of Leipzig, Germany. Construction started in Romanesque style in 1165, but in the 16th century, the church was turned into a Gothic hall church. Baroque elements like the tower were added in the 18th century. Several works by Johann Sebastian Bach, who was the music director of Nikolaikirche and of St. Thomas Church from 1723–50, premiered here. The church rose to national fame in 1989 with the Monday Demonstrations when it became the centre of peaceful revolt against communist rule. By capacity, it is one of the largest churches in Saxony.

Fri, 27 Nov 2020

08:00 Registration | Leipziger KUBUS

08:30 The Temptation of Urban Rural Partnerships in Transitional European Countries

Prof. Dr. Borislav Stojkov, University of Belgrade, Faculty of Geography. Full member of the Academy of Engineering Sciences of Serbia
